

“Dakota Granite has always invested their money in top-notch design equipment. Our baby boomers want something different from the designs their parents and grandparents chose and Dakota Granite helps us provide them quality, custom memorials. At the national shows their display is always the most unique one there – whether it’s shape, combining colors, polish methods – it’s always something cutting edge.

Speaking of the shows, Dakota Granite is one of our biggest supporters at our state conventions. They are always there and bring a display, host a luncheon – anything they can do to support the retailer. They give 110%.

We never have to worry about their quality or them sending us something a family isn’t going to accept. They send a salesman right to my door, so they put forth the effort to come see me and see my showroom. So with their service, dependability, design... I consider them the General Motors of the granite industry. Why would you deal with anyone else?”
